U. S. Steel Among Most Con-
spicuous Issues.

NEW YORK, March 2.—The early improvement in values was generally extended and in the early afternoon quotations stood at the highest level of the session. The advance was accomplished in an extremely dull market, and gains of 1 to 2 points were recorded on short covering and a light amount of real buying.

Among the most conspicuous issues for their strength were Mexican Petroleum, United States Steel, Anaconda, Marine preferred, Crucible and Industrial Alcohol, Columbia Gas, in which a pool is believed to be operating, was further assisted by very favorable earnings statement for January.
